# Intelligent Vision and Action for the Public Sector

Safer. Efficient. Better.

The **Chooch AI Vision Platform** is a full-lifecycle CV platform that allows users to create and deploy object detection, image classification, and facial detection models to the edge, in the cloud, or any combination.

Helicopter - (0.95)

Person - (0.31)

Out of the box, the Chooch AI Vision Platform contains an inference engine that deploys pretrained layered AI or custom CV models. No vendor lock – bring your own, open source or Chooch ReadyNow™ AI models and protect your investment.

Key Differentiators

Complete Computer Vision Lifecycle
From dataset annotation, synthetic data generation, model training & testing, inferencing, and providing analytics & insights

Active Continuous Learning
We put it in production, and active automated continuous learning keeps it in production

ReadyNow™ AI Models
Pre-trained "ReadyNow™" AI models for immediate production deployments

Flexible Deployment Options
It is the only CV platform capable of operating at the edge, in the cloud, self-hosted or any combination

Hardware & Software Agnostic
Capable of deploying on Nvidia GPU's and Intel CPU's as well as allowing users to upload their own models and pre-annotated datasets eliminating hardware and software vendor lock

Smart Annotation, Synthetic Data Generation & Data Augmentation
Automating and accelerating the generation of data sets

Company Overview
Established 2015
HQ: San Mateo, CA
200 Employees
DUNS #: 080259147

Contract Vehicles
CAGE Code: 87A07
SBA SBC: 001529615
CA SLP: 22-70-0263C

NAICS Codes
511210   541511
541512   541519
518210   541715

UNSPSC Codes
43232000

Benefits

Safety & Security

• Zone Violations
• Facial Recognition
• Slip & Fall Detection
• PPE Detection

Revenue & Planning

• Fare Evasion
• Tolling & Vehicle Classification
• Crowd & Traffic Analysis
• Luggage Detection & Tracking

Maintenance & Operations

• Geospatial Site Analysis
• Smoke, Fire, Gas, & Chemical Detection
• Heat Mapping & Productivity Analysis
• Defect Detection

About Chooch

Chooch helps build and run the best Computer Vision AI applications that make cameras intelligent, enhancing productivity & revenues, while reducing operational costs.

Chooch is a leading AI Vision platform that instantly detects specific visuals, objects, and actions in videos and images, especially critical anomalies, immediately comprehending their significance and launching preprogrammed responses – all in a fraction of the time it takes the human eye to notice an issue.

Chooch services multiple industries – manufacturing, public sector, retail, telco, healthcare and many more across fortune 500 companies with leading partner including Microsoft, Deloitte, Nvidia, EY and HPE.

Named "Best Overall Computer Vision Company for 2022" by AI Breakthrough Awards
